

HURRICANE IDA
INSURANCE CLAIMS

**BE CAREFUL
WITH PUBLIC
ADJUSTERS!**

TIPS ON WHAT TO WATCH OUT FOR

They're all over the place

YES, they are.

They follow disasters.

Some are good. Some are bad.

It's important to know how to
tell.

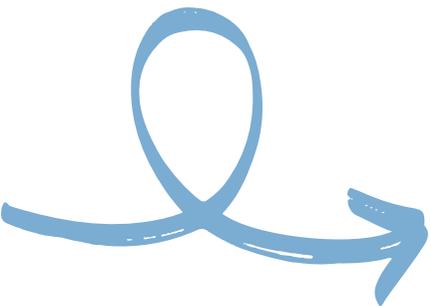

License Required

A public adjuster
has to be licensed.

**DON'T BE AFRAID
TO ASK TO SEE IT!**

No Contingency Fees

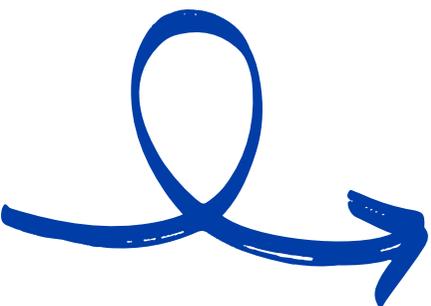

A public adjuster is NOT ALLOWED to charge you based on results.

That means they can't charge you a percentage of recovery OR tell you that you only have to pay them if they get you more.

No Referral Fees

A public adjuster CAN NOT accept compensation for referring you to an attorney or contractor.

If they suggest someone, don't be afraid to ask "*so what do you get for the referral?*" and make sure there is no quid pro quo.

No Legal Advice

Public adjusters are NOT lawyers and can't negotiate or provide legal advice or argument regarding your insurance claims.

If part or all of your claim is denied, that is a legal issue for which you need a lawyer to negotiate, not a public adjuster.

Know the law

Louisiana Revised Statute 22:1706 spells out exactly what public adjusters are allowed to do, and what they're NOT allowed to do.
